

For Small Business ........ cisco

# Security Solutions for Your Small Business at an Affordable Price

For a small business like yours, knowing what's happening in your storefront, warehouse, or parking lot at all times can make all the difference in your company's physical and financial security. With a Cisco® surveillance solution, you will be able to monitor your business operations and manage multiple sites from a central location over the IP network you already have in place.

## **Cisco Small Business Video Surveillance IP Portfolio features:**

- Operate and control up to 64 cameras from a single application
- Access live video of your business from anywhere, over the Internet
- Receive automatic alerts (including real-time video) on your PC or 3G mobile phone if motion is detected on your premises
- Locate specific dates, times, or incidents in video archives quickly and easily, instead of having to manually pore over hours of analog video
- Cost-effectively add new cameras, video storage, and security applications as the business evolves
- Store video as digital files on a Cisco Small Business networkattached storage solution designed to easily integrate with your video surveillance system

### The Right Solution for Your Small Business

Cisco Video Surveillance IP solutions offer a wide variety of cameras, storage devices, and accessories to fit the needs of any small business. Whether you need a low-cost basic monitoring system, higher-quality optics and motion detection capabilities, or industry-standard cameras that can operate in rugged outdoor environments, the Cisco Small Business portfolio offers an ideal solution.

Depending on the model, these cameras offer a wide variety of features and benefits:

- Cisco WVC210 Wireless-G PTZ Internet Video Camera
- · Cisco 2300 Series Cameras
- Cisco VC220 Dome Network Camera
- · Cisco VC240 Bullet Network Camera
- Cisco PVC300 Pan Tilt Optical Zoom Internet Camera

### Cisco WVC210 Wireless-G PTZ Internet Video Camera

A wireless video camera with remote management capabilities, the Cisco WVC210 provides the ideal entry-level IP video surveillance solution. This Wireless-G camera can be deployed anywhere, without the need for Ethernet cables. Pan, tilt, and digital zoom capabilities let you remotely control camera movement and focus.

### Cisco 2300 Series Cameras

Cisco 2300 Series cameras provide feature-rich wireless WVC2300 or Power over Ethernet PVC2300 video surveillance options. These high-quality box cameras accommodate a variety of industry-standard lenses and camera bases, and can be used in rugged outdoor environments.

### The Cisco VC220 Dome Network Camera

The Cisco VC220 Dome
Network Camera is a flexible,
unobtrusive video surveillance
solution that delivers
premium camera features and
outstanding video quality at an
affordable price. This indoor
camera functions effectively day
and night, with a wide dynamic
range (WDR) that lets you
use a single camera for many
situations, regardless of lighting.

## The Cisco VC240 Bullet Network Camera

The Cisco VC240 Network
Camera is an affordable solution
that delivers superb video
quality and rich monitoring
features in a bullet form factor.
Its dust- and moisture-resistant
enclosure makes this camera
ideal for indoor and outdoor
environments or spaces such as
shop floors. The Cisco VC240
offers a WDR for high video
quality surveillance day or night,
regardless of lighting, with
single-cable Power over
Ethernet (PoE) support.

### Cisco PVC300 Pan Tilt Optical Zoom Internet Camera

The Cisco PVC300 Pan Tilt Optical Zoom Internet Camera provides a feature-rich, highly flexible video solution for your business. It provides full pan, tilt, and optical zoom capabilities to let you monitor any aspect of your business operations and virtually manage cameras at multiple sites from a central location.

# The beauty of the Cisco software is that it lets us monitor video from any

CISCO SOTTWARE is that it lets us monitor video from any computer in the office. The Cisco solution gives us peace of mind, because a dentist or their assistant can simply glance at the PC to know whether anyone is waiting in the lobby."

—Fred Tan, Owner, Skye Cosmetic Dental Center

### **Cisco Small Business Video Monitoring System**

With most IP surveillance systems, you'll need to purchase separate video monitoring software that can cost as much as \$1500. Cisco Small Business Video Surveillance Cameras include the Cisco Small Business Video Monitoring System—a complete camera monitoring and control suite for up to 16 cameras—at no extra cost. The solution provides a powerful yet intuitive interface to configure and monitor your surveillance system, as well as tools to control cameras remotely, set up event-triggered alerts. Integrate video cameras with alarms and other physical security systems, and much more.

For organizations that need more scalable, intelligent surveillance solutions, the Cisco Advanced Video Monitoring System (AVMS) delivers enterprise-class features at an affordable price. Cisco AVMS software lets customers view and control up to 64 video surveillance cameras inside or outside the office, while providing flexibility to meet changing business needs.

### **Customizing Your Solution**

Depending on the camera model you deploy, you can choose from a broad range of accessories to meet the specific needs of your business and environment.

Cisco Small Business Video Surveillance accessories include:

### For the Cisco PVC300 and 2300 Series cameras:

- Rugged exterior enclosures with heaters and blowers
- Pan/tilt enclosure adapters to mount cameras on ceilings, corners, and poles

### For the Cisco 2300 Series cameras:

- · Custom wide-angle lens
- · Custom zoom lens
- · Industry-standard Fujinon and Tamron varifocal lenses

### For the Cisco VC220 Dome Network camera:

Recessed ceiling and wall mount (Cisco VC025)
